Mission Statement

We offer a warm and loving, Christian environment where children know God, through his Son, Jesus. We honor and nurture each child's individuality and learning readiness through play and exploration. Our goal is to develop the whole child's spiritual, socio-emotional, cognitive, and physical needs.

Educational Philosophy

We believe that to grow and thrive every child needs a balance of learning and play: time to discover and gentle guidance, high-spirited fun and quiet reflection. This is what we provide at South Table Mountain Preschool. Through our program, we combine the best of the two leading teaching philosophies. We let the individual interests of each child serve as the catalyst to healthy social and emotional development, while our teachers guide them to self-confidence and prepare them for life-long academic achievement and spiritual growth.

We value and respect parents and recognize them as the most significant providers of care and nurturing for their children. We are honored to serve as a trusted partner in cultivating self-discovery and the love of learning, as we ensure a safe environment where learning, play, and child care are always in harmony.

What do families say about us?

- *"The teachers are wonderful and show the children the love Jesus has for all of us!"*

- *"Unlike many preschools, STMP is flexible on the days of the week children may attend for the school year, which is important to me because I work part-time."*

- *"Thank you STMP and teachers for being such an integral part of our son's positive and healthy development we have observed in the last 2.5 years. He loves going to school!"*
